WEST VILLAGES FLORIDA

Topping Off

August 9, 2018

The Beam is In!

The Atlanta Braves Spring Training Stadium is making good progress. In July, the team celebrated a major milestone: the installation of the highest beam in the stadium. This is known as a "topping off." Atlanta Braves executives as well as key people from Sarasota County, the City of North Port, Visit Sarasota County, West Villages, construction partners and Mattamy Homes were on hand to sign the beam before it was hoisted to the top.

The beam was adorned with an American flag as well as a tree. The tree symbolizes the life of the project. Workers chose a grapefruit tree as the Braves

The \$125 Million complex is on track to open for its first Spring Training game in mid-March 2019. Following Spring Training, the facility will be open year-round for extended Spring Training games, community events, other sporting competitions, concerts, fund-raisers and much more. The restaurant/tiki bar will be open to the public year-round.

West Villages Development Director Brad Soule signs the beam.

Meet David Hunihan & M/I Homes

As the master developer of West Village Florida, we continuously strive to partner with the nation's top-rated home builders to deliver the most diverse collection of housing options. Over the next several months, we will introduce you to our builder community through a series of articles designed to give you a better idea of what sets them apart. One of our builder partners is M/I Homes, who is building in Oasis at West Villages. Their Sarasota division is led by David Hunihan, who's been in the home building industry for nearly two decades.

Q What distinguishes M/I Homes?

A There are many good builders out there, but I think there's none better at giving the customer a great experience than M/I Homes. We give a better experience. We strive to deliver the best quality at a fair price.

We have a design center right in the area where we offer a lot of personalization for your new home, and we include a lot of options other builders don't offer.

Q What led you to M/I Homes?

A The culture. Although we are a national builder, we are run like a family business. A saying you see in every office and corporate office, is from our co-founder, "Always remember to treat our customers right." This is refreshing to have this level of care from a national builder.

I mean we have the systems and processes of the national home builders, but we execute on a local level.

Q How do you see the future of this area?

A I'm personally very excited about West Villages. There's so much to do in the area, and there's a real community already here. I feel this is the place to be for the next 20 or 30 years.

Q What do you enjoy most about your job?

A I love building houses. I enjoy creating something that lasts, and the homes will be here for decades. The home is more than shelter. It's the place of celebration and family memories.

We deliver the American Dream every day.

M/I Homes Sarasota Division President David Hunihan
