West Villages Florida Enjoys Strong July Sales

West Villages, FL — Sales of new homes in West Villages Florida continue to set records, selling 103 homes in July, a 28 percent increase over July 2017. For the year, there are 752 sales, a 27 percent increase over the same period in 2017.

“People continue to want to live in this area because of our location near important services and entertainment in a new community,” said West Villages President Paul Erhardt. “They embrace our vision for creating a place with a sense of community, connectivity, inspiration and wellness.”

The Atlanta Braves Spring Training Stadium continues on schedule. The team marked a significant milestone with the “Topping Off” event on July 20. This marked the placement of the highest steel beam in the stadium.

To mark the accomplishment, the crew placed an American Flag along with a tree on the beam. The tree signifies the life of the project. They chose a grapefruit tree, as the Braves play in the Grapefruit League.

The Atlanta Braves play their last game of the 2019 Spring Training season in this stadium in March 2019. The stadium will be open throughout the year to host extended Spring Training, athletes in rehabilitation, public and private events and festivals and a variety of sports competitions.

In September, West Villages will announce details of the new 105,000 Square Foot Marketplace.

About West Villages Florida

The more than 15,000 acres that comprise West Villages Florida (www.MyWestVillages.com) are located adjacent to the Tamiami Trail corridor in South Sarasota County between the urban centers of the City of Venice and the City of North Port. The community is being developed by a partnership that includes Mattamy Homes (www.MattamyHomes.com), the largest privately owned home builder in North America, and Vanguard Land, one of the region’s premier and well-respected land developers.
